DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: Applicants' have persuasively argued (Remarks, page 21, line 9- page 22, line 3) that one of ordinary skill in the art would not have been motivated to combine the disclosures of Petit (US 5,561,122 10-1996) and Hochlowski et al (US 5,484,799 01-1996) since each is drawn to different compounds with different indications and activities. There would therefore have been no reasonable expectation for success in applying Hochlowski's teaching of the equivalence of various salts to the compounds of Pettit. The instantly claimed salts are therefore patentable over the teachings of Petit and Hochlowski.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
